Career Objective

It's me Amrit Kafle, and I am a MID-SENIOR Level PHP Developer (Backend) / PHP Web Developer from Kathmandu. For the past 3 years, I've been developing applications for the web using Core PHP, Laravel and Yii2. Over 3+ years commercial experience, ranging from medium to large and complex systems, and have worked with E-commerce, News Portal, Travel and Hotel Website, Account system and Informatics Website etc.

I am a talented and versatile senior developer who specialises in custom web development, focusing on custom module development for PHP, a secure platform that is user-friendly, flexible and allows for complete customisation. I have skills as a PHP Developer and have extensive experience with custom coding and with different PHP frameworks.

Technical Skills

-Critical thinker with Three years' experience in identifying software issues and debugging code to approach problems analytically -Team leader necessary to lead a team of junior programmers and facilitate an open, communicative work environment while delegating roles efficiently to the strongest suited colleagues -Proficient in coding language, certified in PHP, and fluent in many major coding languages such as HTML, JavaScript, Laravel, Yii2, Bootstrap, and more -Detail-oriented with great attention to detail to avoid coding mistakes -Efficient time management to meet strict deadlines when developing startup website, requiring efficient use of time and resources

Work Experience

1. **Web Developer** (Encrafts Technologies) (2017- Now)
 - a. Collaborate with web design and development team to create a new website for a tech startup, assisting with coding and beta testing.
 - b. Delegate objectives to team of coders to facilitate time frame and meet the common vision of the project.
 - c. Assist design team with coding to create a user-friendly interface that is compatible across every major operating system.
 - d. Manage user feedback and perform system check-ups to ensure the functionality of the website.
