AMRIT KAFLE
New Baneshower, Kathmandu, Nepal | 9849437904 | amk.amrit@gmail.com

----

Education

2010-2012 +2 Science , Everest Higher Seconday School,Kathmandu
2012-2016 Electronic and Communication Engineering, Nepal Engineering, Bhaktapur

Working Experience

July -2015 to Current fill time faculty (PHP developer)-Encraft Technologies

Programing Language

Major

 PHP, Yii2, laravel , Bootstrap, Javascript

Basic

Wordpress, Woocommerse, OpenCart, Mgnto, C, C++,java,Grails

College Project

1. **Automatic Lamp**, SEM VI- The output of this project is automatic Lamp ON and OFF dependent upon intensity of light. Similar example of this project is solar light on road. If light intensity become low light automatic on and light intensity high light automatic off.
2. **Green House Monitoring and controlling system ,** SEM VII and VIII- The output of this project is every device automatic operate in green house. We ware using arduino board and arduino programing in this project. If the temperature become low in green house heater is automatic on and information send owner via website. Similarly other device operate (Pump for water supply). One other important device is Enternet Shiled (Which is used to send data local device to interment).

Commercial Project

1. 2017 Aahandicraft(http://www.aahandicraft.com)- It is Ecommerce website. I was developed core php, but is upgraded woocommerse.
2. 2017 naturalsoundhealingcenter (http://www.naturalsoundhealingcenter.com)   It is normal website just provide information about company. I was developed YII2.
3. 2017 Bibeksheelsajha (http://www.bibeksheelsajhafinance.com)- This is system which maintain account and membership of bibeksheelsajha party.
4. E-commerce website (http://ommantracrafts.com/)
5. E-commerce website (http://nshis.com/)

Personal Project

1. Construction (Offline)(YII2, Grails)
2. Membership management (offline)(YII2)
3. Social media Like twitter (offline)(Grails)

Training Attended

1. Java Training (3 months duration) from DeearWalk
2. PHP Training (2 months duration) form Aptach
3. Arduino Training (2 Weeks) in College
